Special Prices for Spring, 1931

BOYD NURSERY COMPANY

F. C. BOYD, Manager
McMINNVILLE, TENNESSEE

GARDENING TIME WILL SOON BE HERE

There is no denying the fact that the modern age appreciates beauty of the home and grounds more than ever before. This is why the vogue of beautiful grounds is captivating the country, and why everyone will soon be exemplifying the idea that "It's Not a Home Until It's Planted."

We employ this method of soliciting your order, for you can check over your requirements at your leisure, and only buy what you need AT A BIG SAVING. If we were to employ agents to call on you and other persons, it would involve considerable expense, 30 to 50 per cent more than we now ask, consequently, calling by mail results is a big saving, which we are passing on to you in these low prices on hardy, healthy, vigorous nursery stock.

It is easy to order by mail. Just fill in the enclosed order blank, being particular to specify just what is wanted. Your name, post office and shipping point should be written plainly to avoid mistakes.

These prices are F. O. B. McMinnville. No charge for packing.

Ornamental Shrubs

This ornamental shrub group includes all those deciduous, blooming and berry-bearing plants that are ordinarily called shrubs. They naturally cover a wide range as to size, from dwarf to those that are tall enough for screens. In color of blossom, character of growth, etc., you will find something suited for every location. By only a very small investment you will greatly increase, not only the beauty of the home grounds, but add money value as well.

PRIVET. We are large growers of the Ligustrum Privet, in varieties. For live fences at village, town and country homes, it is the very best of all materials. On public grounds of all kinds, in parks and cemeteries, along roads and paths, on factory grounds, and in new subdivided areas, nothing else can be used to take its place.

Amur River North Privet. Very hardy and widely used in the North.

	Per 10	Per 100

2 to 3 feet.....	.35	3.00

COMPTONIA ASPLENIFOLIA, Sweet Fern. A very useful shrub for covering banks, and dry, sandy soil. The bushes are muchly branched, with fern-like, scented foliage.

	Per 10	Per 100
12 to 18 inch.....	.25	2.00
18 to 24 inch.....	.35	3.00

CRAPE MYRTLE, Lagerstroemia. This should be planted only in the spring. Has dark green foliage, with blossoms in panicles of peculiar but attractive flowers. We have both pink and red.

	Per 10	Per 100
12 to 18 inch.....	.35	3.00
18 to 24 inch.....	.50	4.00
2 to 3 feet.....	.75	6.00

CYDONIA JAPONICA, Japanese Quince. The earliest herald of spring. The flowers are borne in great masses just as the leaves are coming out.

	Per 10	Per 100
12 to 18 inch.....	.30	2.50
18 to 24 inch.....	.50	4.00
2 to 3 feet.....	.80	7.00

DEUTZIAS. These shrubs are very attractive and useful in many places. The dainty bell or tassel-shaped flowers are borne thickly in wreaths along their branches in May and June. We offer both dwarf and tall-growing varieties.

Candidissima. Upright growing; pure white flowers.

Crenata. Will grow to about 6 feet, and is covered in June with light pink flowers.

Fortunei. Erect branches, dark green leaves. Pale pink flowers.

Pride of Rochester. One of the best. Upright growing, white flowers tinged with pink.

	Each	Per 10
12 to 18 inch.....	\$0.20	\$1.50
18 to 24 inch.....	.30	2.50
2 to 3 feet.....	.40	3.50

ELDER, Sambucus Canadensis—American Elder. Immense flat-topped cymes of white flowers in early summer, followed in early fall by luscious black fruits.

12 to 18 inch.....	.20	1.50
18 to 24 inch.....	.30	2.00
2 to 3 feet.....	.40	3.50

AUREA, Golden Elder. Its golden yellow leaves contrast beautifully with the other shrubs; flowers are white.

18 to 24 inch.....	.30	2.50
2 to 3 feet.....	.40	3.50
3 to 4 feet.....	.60	5.00

LACINIATA, Cut Leaf Elder. Leaves very finely cut, a very distinct and unusual shrub. In some respects similar to the Golden Elder.

18 to 24 inch.....	.30	2.50
2 to 3 feet.....	.40	3.50
3 to 4 feet.....	.50	4.00

EUONYMUS AMERICANUS, Strawberry Bush. A very showy shrub, erect in growth, leaves bright green, with rich pink fruits concealed in scarlet pods. Hardy in the North.

18 to 24 inch.....	.20	1.50
2 to 3 feet.....	.35	3.00

EXOCHORDA GRANDIFLORA, Pearl Bush. Buds like pearls strung on slender threads, opening up to fragrant clusters of pure white flowers. Will grow 10 feet tall.

18 to 24 inch.....	.40	3.50
2 to 3 feet.....	.60	5.00
3 to 4 feet.....	.80	7.00

FORSYTHIAS, Golden Bell. Very few of the early spring-blooming shrubs can surpass the Forsythias. They thrive in most any soil. The upright forms make excellent tall hedges, and are exceedingly good for massed shrub groups.

Fortunei. Upright, yellow flowers.

Intermedia. Slender, erect arching branches, yellow flowers.

Suspensa. Long, curving branches; yellow flowers.

Viridissima. Upright. Brilliant green foliage, yellow flowers.

18 to 24 inch.....	.30	2.50
2 to 3 feet.....	.40	3.50
3 to 4 feet.....	.60	5.00

HYDRANGEA ARBORESCENS WILD. A native plant of the mountains, bearing white flowers in flat heads in summer.

12 to 18 inch branched.....	.15	1.00
18 to 24 inch branched.....	.20	1.50
2 to 3 feet branched.....	.25	2.00

Hydrangea Arborescens Grandiflora. Clusters of snow-white flowers throughout the summer. Resembles old fashion Snowball. Makes a fine hedge and will grow in shady places.

Hydrangea Paniculata Grandiflora. No other shrub will give quite as much enjoyment as will this shrub. Produces immense cone-shaped flowers of greenish-white, later turning to pink. Will grow 5 to 7 feet.

12 to 18 inch branched.....	.25	2.00
18 to 24 inch branched.....	.35	3.00
2 to 3 feet branched.....	.50	4.00

LILACS. A very easily grown shrub. Perfectly hardy and blooms freely in April and May. Give best results in rich, fertile soil.

Common Purple Lilac.

Common White Lilac.

Rothomagensis, Persian Lilac.

12 to 18 inch branched.....	.20	1.75
18 to 24 inch branched.....	.25	2.25
2 to 3 feet branched.....	.40	3.00
3 to 4 feet branched.....	.75	6.00

LINDERA BENZOIN, Aestivalis, Spice Bush. A very early blooming shrub. The small yellow flowers are followed by scarlet berries. The foliage, too, is very attractive. A fine shrub for moist places.

18 to 24 inch transplanted.....	.40	3.50
2 to 3 feet transplanted.....	.50	4.50

LONICERAS, Bush Honeysuckle. These plants are vigorous growers, free bloomers and easily cultivated.

Bella Albida. White, sweet-scented flowers and bright red berries.

Fragrantissima. Very early; pale pink flowers.

Morrowi. White, foliage good.

Tartarica Pink. Light pink flowers.

Tartarica Alba. White flowers.

12 to 18 inch branched.....	.20	1.50
18 to 24 inch branched.....	.25	2.00
2 to 3 feet branched.....	.30	2.50

PHILADELPHUS VIRGINAL. One of the newer varieties of this beautiful shrub. Flowers are large and very fragrant. Long blooming season.

18 to 24 inch.....	.60	5.00
2 to 3 feet.....	.80	7.50

PHILADELPHUS, Mock Orange. Very desirable for grouping with other shrubs, or as single specimens. Bear heavy pruning.

Coronarius. Flowers small and single; deliciously fragrant.

Gordonianus. Large, white flowers.

Grandiflorus. Flower large white; foliage also large.

Mont Blanc. Dwarf in habit, with fragrant blooms.

Nivalis. Dwarf, single white flowers.

	Each	Per 10
12 to 18 inch branched.....	\$0.15	\$1.00
18 to 24 inch branched.....	.25	2.00
2 to 3 feet branched.....	.35	3.00

RHUS—SUMAC. These beautiful ornaments have not been planted as they should be. In view of the brilliant color of foliage in autumn and the fruit for feeding the birds in the winter. It is a very desirable shrub.

Copallina. A tall shrub, with greenish-yellow flowers. Lustrous leaves turn to crimson in fall.

Glabra. Will grow to small tree. Large and striking foliage. Great spikes of crimson seeds make it very ornamental.

Typhina. Valuable for its brilliantly colored autumnal foliage, and smooth velvet-like bark.

18 to 24 inch.....	.25	2.00
2 to 3 feet.....	.30	2.50
3 to 4 feet.....	.50	4.00

RHUS COTINUS, Purple Fringe. A tall shrub, or fair-sized tree, of unusually striking appearance. A great mass of misty, purplish flowers cover the entire bush in June. Foliage colors up in the fall.

18 to 24 inch.....	.40	3.50
2 to 3 feet.....	.60	5.00
3 to 4 feet.....	.80	7.00

SPIREAS. All the Spireas bloom with an unrestrained extravagance. The style, color and habits of growth differ so much that a collection of varieties will insure bloom throughout the season, and still evade repetition.

Anthony Waterer. Low-growing, bushy head of bright crimson flowers.

12 to 18 inch.....	.35	3.00
18 to 24 inch.....	.50	4.00

Billardi. One of the most popular Spireas. We have both pink and white. Makes a narrow, thick shrub.

18 to 24 inch.....	.20	1.50
2 to 3 feet.....	.35	3.00
3 to 4 feet.....	.50	4.00

Callosa. A dense, low-growing bush. Small flat heads of flowers appear in July and August. Please state color, pink or white, when ordering.

18 to 24 inch.....	.25	2.00
2 to 3 feet.....	.35	3.00
3 to 4 feet.....	.50	4.00

Douglasi. Flowers are deep rose color. A medium-size shrub of upright growth.

18 to 24 inch.....	.20	1.75
2 to 3 feet.....	.30	2.50
3 to 4 feet.....	.50	4.00

Opulifolia. A very vigorous grower. The clusters of flowers are followed by red berries.

18 to 24 inch.....	.25	2.00
2 to 3 feet.....	.30	2.50
3 to 4 feet.....	.50	4.00

Reevesiana. One of the best of the Spireas, growing 4 to 5 feet tall. White flowers borne along the stems just as the foliage appears make a most attractive bush. Very graceful in habit of growth.

18 to 24 inch.....	.25	2.00
2 to 3 feet.....	.35	3.00
3 to 4 feet.....	.50	4.00

Thunbergii. Forms a dense, feathery bush. The foliage is a peculiar but pleasing shade of green, changing in the fall to bright red and orange. White flowers in early spring.

18 to 24 inch.....	.30	2.50
2 to 3 feet.....	.35	3.00

Van Houttei. One of the most useful of all shrubs. Blooms during April and May. The branches of pure white flowers suggest a fountain of snow.

12 to 18 inch branched.....	.10	.75
18 to 24 inch branched.....	.15	1.00
2 to 3 feet branched.....	.25	2.00

VIBURNUM OPULUS STERILE, Common Snowball. This old-fashion variety is well known to every lover of plants. The balls of pure white literally cover the bush when in bloom.

12 to 18 inch.....	.35	3.00
18 to 24 inch.....	.45	4.00
2 to 3 feet.....	.65	6.00

Plicatum, Japan Snowball. A compact-growing shrub, with brownish-green leaves. Flowers appear in June. Fine for individual planting.

12 to 18 inch branched.....	.35	3.00
18 to 24 inch branched.....	.45	4.00
2 to 3 feet branched.....	.65	6.00

WEIGELA. One of the best deciduous flowering shrubs for any location, has large and attractive foliage, also large clusters of trumpet-shaped flowers that make a wonderful display in spring and early summer.

Amabilis. Pale pink flowers.

Gustav Mallet. Reddish-pink.

Hendersonia. Dark pink; very strong growing.

Mme. Lemoine. Flowers blush changing to deep pink.

Rosea. Clear pink. One of the best known varieties.

Variegated. Leaves bordered with yellowish-white; pink flowers.

12 to 18 inch branched.....	.20	1.50
18 to 24 inch branched.....	.25	2.00
2 to 3 feet branched.....	.30	2.50
3 to 4 feet branched.....	.40	3.50

Ornamental Shade Trees

A few good trees and an even, luxuriant lawn are the two real essentials for beauty and comfort on the home grounds. Since the trees require several or more seasons to become well established, it is important for the home-owner to get them planted on the property as soon as possible. The opportunity given by the year's rather short planting season should be taken care of. Here's the prices, which is the good news in a nutshell. Send your order to day.

POPULUS CANDICANS, Balm of Gilead. A handsome tall tree with spreading branches, forming a comparatively broad crown.

	Each	Per 10
3 to 4 feet.....	\$0.40	\$3.50
4 to 6 feet.....	.75	6.50

POPULUS DELTOIDES, Golden-Leaved Poplar. A form of yellow foliage. One of the best of the yellow-leaved trees, generally holding its color throughout the growing season.

3 to 4 feet.....	.40	3.50
4 to 6 feet.....	.75	6.50

POPULUS NIGRA, Lombardy Poplar. This well-known and extremely rapid growing tree has bright pale-green leaves, lighter beneath, and branches down to the ground. It is used very satisfactorily for screen purposes and also for formal effect on account of its columnar form.

4 to 6 feet.....	.40	3.50
6 to 8 feet.....	.60	5.00
8 to 10 feet.....	1.00	9.00
10 to 12 feet.....	1.50	12.00

POPULUS SIMONI, New Chinese Lombardy Poplar. We have a large stock of these in most any sizes and the price will be the same as for the above Lombardy.

SILVER MAPLE, *Acer Dasycarpum*. A very rapid growing tree. Will grow in poor and dry soil.

3 to 4 feet transplanted.....	.25	2.00
4 to 6 feet transplanted.....	.40	3.50
6 to 8 feet transplanted.....	.75	6.50
8 to 10 feet transplanted.....	1.25	10.00
10 to 12 feet transplanted.....	2.00	15.00

NORWAY MAPLE, *Acer Platanoides*. One of the best shade trees for all purposes. Grows to large size, and is of neat, compact habit.

6 to 8 feet.....	2.00	18.00
8 to 10 feet.....	3.00	25.00

SCARLET MAPLE, *Acer Rubrum*. A fine tree for wet locations. Scarlet flowers in early spring, with dense foliage throughout the summer.

4 to 6 feet.....	.60	5.00
6 to 8 feet.....	.75	6.50

SUGAR MAPLE, *Acer Saccharum*. A most widely used tree for street or lawn planting. Grows to large size, full and compact.

4 to 6 feet.....	.40	3.50
6 to 8 feet.....	.75	6.50
8 to 10 feet.....	1.25	10.00
10 to 12 feet.....	2.00	15.00

AMERICAN BEECH, *Fagus Americana*. A magnificent tree of spreading growth. The beautiful yellow foliage and gray bark make it very attractive.

6 to 8 feet.....	1.00	8.00
8 to 10 feet.....	1.50	12.00

CATALPA BUNGEI, Umbrella Catalpa. They are very ornamental trees, used more where special effect is desired, along driveways or walks.

5 to 6 feet, two years.....	1.25	10.00
6 to 7 feet, two years.....	1.75	15.00

CATALPA SPECIOSA, Western Catalpa. A very handsome tree, with large, tropical-looking leaves and big clusters of white flowers. A quick grower.

4 to 5 feet.....	.35	3.00
6 to 7 feet.....	.60	5.00

HORNBEAM, *Carpinus Americana*. Another low-growing, bushy tree. Will stand trimming well, therefore used extensively for hedging. Beautiful foliage in Autumn.

4 to 6 feet.....	.50	4.00
6 to 8 feet.....	.75	6.50

WHITE BIRCH, *Alba Betula*. This Birch is a medium-sized tree with white bark and small, dark green leaves that turn pale yellow in the fall and is attractive for its conspicuous bark in winter. Will thrive in dry soil.

	Each	Per 10
3 to 4 feet.....	\$.90	\$ 8.00
4 to 6 feet.....	1.25	10.00
6 to 8 feet.....	1.75	15.00

RIVER BIRCH, *Betula Nigra*. This is the famous Birch with the torn or ragged bark. Foliage dark green, turning to a dull yellow in autumn. Does well in a moist planting.

3 to 4 feet.....	.50	4.00
4 to 6 feet.....	.75	6.00
6 to 8 feet.....	1.00	8.00

RED BUD, *Cercis Canadensis*. A very ornamental, low-growing tree. Along the numerous spreading branches in very early spring, the rosy-purple blossoms appear, even before the leaves, making it look like a pink cloud.

5 to 6 feet.....	.50	4.50
6 to 8 feet.....	.85	7.50
8 to 10 feet.....	1.25	10.00

WHITE DOGWOOD, *Cornus Florida*. One of our native, ornamental trees that is planted both for its early spring and late fall attractiveness. In the early spring the millions of white flowers appear before the leaves, then in the fall the foliage colors beautifully.

4 to 5 feet.....	.50	4.50
5 to 6 feet.....	.75	6.50
6 to 8 feet.....	1.00	8.00
8 to 10 feet.....	1.50	12.50

CHINESE ELM. One of the quickest growing shade trees that we offer. Very hardy, and remarkably free from usual plant diseases.

6 to 8 feet.....	1.25	10.00
8 to 9 feet.....	2.00	17.50
9 to 10 feet.....	2.75	25.00

WITCH HAZEL, *Hamamelis Virginiana*. Very hardy tree. Showy yellow flowers appear after the ripening of the leaves, when other shrubs are dormant.

2 to 3 feet.....	.40	3.00
3 to 4 feet.....	.50	4.50

VARNISH TREE, *Koelreuteria Paniculata*. A very rare tree. In July it is covered with long clusters of golden yellow flowers, and in autumn the foliage turns to crimson and gold.

2 to 3 feet.....	.50	4.50
3 to 4 feet.....	.75	6.00

LIQUIDAMBER, Sweet Gum. Another handsome native tree. Although it is not especially easy to transplant nor a very rapid grower, the glossy foliage in summer, followed by the brilliant colors in the fall, make it a tree worthy of consideration.

2 to 3 feet.....	.75	6.00
3 to 4 feet.....	.90	8.00
4 to 6 feet.....	1.25	10.00

WEeping WILLOW, *Salix Babylonica*. Tall, spreading, with long drooping branches. Prefers a moist location.

6 to 8 feet.....	.75	6.50
8 to 10 feet.....	1.25	10.00

PUSSY WILLOW, *Salix Caprea*. A small, shrubby tree, with numerous upright branches. The catkins are highly prized for cutting and furnishing the first spring beauty to house decorations.

3 to 4 feet.....	.35	3.00
4 to 5 feet.....	.50	4.50

SYCAMORE, *Platanus Occidentalis*. A hardy, native tree, often reaches 100 feet. Bark peels annually and the new bark is silvery white.

4 to 6 feet.....	.60	5.00
6 to 8 feet.....	.75	6.50

Evergreens

It is impossible to describe the beauty of Evergreens. They have an individual charm that they retain throughout the year, and which becomes even greater with the passing of several seasons. The green foliage, of every possible shade, is very pleasing during the winter months. The many varied types and forms make it possible to secure varieties suitable for any planting.

ABIES BALSAMEA, Balsam Fir. A slender growing tree, of great hardiness. The fragrant foliage is dark green above, silver beneath, with cones of a purplish violet color.

12 to 18 inch.....	\$1.50	\$12.50
18 to 24 inch.....	2.50	20.00

CEDRUS DEODARA, Indian Cedar. This tree will attain great height, growing in pyramidal form. This tree is really a good substitute for the Colorado Blue Spruce, more open and graceful in habit, but very similar in coloring. It will do better on well-drained soil.

2 to 3 feet.....	3.50	30.00
3 to 4 feet.....	5.00	45.00
4 to 5 feet.....	7.50	

COMMUNIS HIBERNICA, Irish Juniper. This is a decided columnar form, and attracts attention. Foliage a glaucous green. For formal work, it has decided advantage over anything you can use. This type needs no shearing.

18 to 24 inch.....	1.00	9.00
24 to 30 inch.....	2.00	17.50
30 to 36 inch.....	2.75	25.00

JUNIPER PFITZERIANA, Pfitzer's Juniper. One of our most popular Junipers, used largely in foundation planting. It is a grayish-green, summer and winter. Will grow as large as 10 feet.

18 to 24 inch spread.....	\$3.25	\$30.00
24 to 30 inch spread.....	5.00	45.00

EXCELSA STRICTA, Stricta Juniper. A compact and slow-growing Juniper, with grayish-green foliage. A very distinct and beautiful evergreen, used quite a bit for foundation planting.

18 to 24 inch.....	2.25	20.00
24 to 30 inch.....	3.00	27.50
30 to 36 inch.....	4.00	37.50

VIRGINIANA, Red Cedar. A very hardy, pyramidal-shaped evergreen tree, or one that can be trimmed to any desired shape. Light green foliage, which becomes darker as the season advances. A rapid grower.

18 to 24 inch.....	.75	6.00
24 to 30 inch.....	1.25	10.00
30 to 36 inch.....	1.75	15.00

COLORADO BLUE SPRUCE, *Pungens Glauca*. This is one of the showiest and most impressive evergreens. Foliage rigidly angular with sharp needles very densely set. The cones are a glossy brown, 3 to 4 inches long.

	Each	Per 10
18 to 24 inch.....	\$ 8.00	
2 to 3 feet.....	12.00	
3 to 4 feet.....	16.00	

EXCELSA PICEA, Norway Spruce. A lofty tree of pyramidal habit. Its color is a good rich, dark green, but when the new spring growth lights up the branches, the tips are silvery blue, making it very showy. Commonly used for Christmas trees.

18 to 24 inch.....	2.00	\$17.50
2 to 3 feet.....	2.75	25.00

RETINOSPORA PLUMOSA AUREA, Golden Plumed Cypress. A very popular golden evergreen, and suitable for almost any situation. It has soft, plume-like foliage. The golden tint forms quite a pleasing contrast to the green grass.

15 to 18 inch.....	1.50
18 to 24 inch.....	2.00
24 to 30 inch.....	3.00

PLUMOSA GREEN. Very similar in growth and habit to the Golden Retinospora, except that foliage is a beautiful green.

15 to 18 inch.....	1.50
18 to 24 inch.....	2.00
24 to 30 inch.....	3.00

SQUARROSA VEITCHI, Veitchi's Silver Cypress. A very dense, wide pyramid with beautiful silvery blue foliage, of a soft, feathery texture.

2 to 3 feet.....	3.00
3 to 4 feet.....	5.00

AMERICAN ARBOR VITAE (*Occidentalis*). This variety is one of our most popular evergreens, because of its easiness to transplant. It thrives under most any condition; can be used as a specimen plant, and is fast becoming popular as a hedge plant. You will not go wrong in planting a few of these.

18 to 24 inch.....	1.25	10.00
24 to 30 inch.....	1.75	15.00
30 to 36 inch.....	2.25	20.00

BERCKMAN'S GOLDEN ARBOR VITAE (*Aurea Nana*). Of dense, compact form, golden color. Always beautiful, whether planted alone, in pairs, or on the edge of a group of evergreens. Never gets too tall.

12 to 18 inch.....	2.00	18.00
18 to 24 inch.....	3.50	30.00
24 to 30 inch.....	4.00	

CHINESE ARBOR VITAE (*Orientalis*). This variety is very similar to the American Arbor Vitae. It, too, can be planted singly or in groups. Has dark green foliage, a little more compact than the American. Stands trimming very well.

18 to 24 inch.....	.85	8.00
24 to 30 inch.....	1.25	10.00
30 to 36 inch.....	2.00	18.00

Bulbs for Spring Planting

CANNAS. What is more beautiful than a bed of Cannas? We have a fine assortment of bulbs in both green and brown foliage. Mixed bulbs and named varieties. See Descriptive Catalog for named varieties. Mixed bulbs, 10c each; 60c per dozen.

GLADIOLUS. Gladiolus are being planted more now than ever before. People everywhere are beginning to realize and appreciate the beauty and usefulness of the Gladiolus. We offer some beautiful shades, purple, pink, orange, red, white. If you want named varieties, please refer to our Catalog, and order accordingly. We offer here mixed bulbs, 5c each; 40c per dozen.

TULIPS. As you know, Tulips are the earliest of spring-blooming bulbs. They give a very striking color effect. We offer you a fine collection of mixed bulbs at 40c per dozen.

HYACINTHS. To further brighten your home grounds, or your garden, plant a few more Hyacinths. We have some extra nice bulbs to offer for spring planting, both single and double, and they should be planted as early as possible. We can offer you mixed varieties at \$1.50 per dozen.

YUCCA FILAMENTOSA. This is known as Adam's Needle. This is a very hardy plant, and especially good for dry banks, where few other plants survive. The immense branching spikes of drooping, creamy white flowers, rising to a height of 6 feet, render it a bold and handsome subject. We can sell these at \$1.00 per dozen.

Fruits and Berries

Fruit trees serve a double purpose in the home planting plan. In the early spring their blooms are unsurpassed for beauty by any other plant or tree, and later on in the summer the fruit is delicious and offers a splendid opportunity for preserving and canning. You cannot go wrong by including a few choice fruit trees in your garden or lawn. We offer a large list from which to select and at unusually attractive prices. Our trees are one and two-year-old, specially adapted to the climatic conditions of the middle states, and are varieties that we believe to be productive and will bear profitable crops. No home is complete without a few fruit trees. To those who are planning on planting commercial orchards we are in position to quote most attractive prices on quantity lots. We also have a large assortment of berries and grapes.

BOYD NURSERY COMPANY, McMinnville, Tennessee

AUREA CONSPICUA ARBOR VITAE (*Golden-Tipped*). A very attractive, golden-foliaged Arbor Vitae, pyramidal in habit of growth. Used quite a bit in group plantings with the dark foliage varieties, on account of its contrasting foliage.

	Each	Per 10
15 to 18 inch.....	\$1.50	\$12.50
18 to 24 inch.....	2.00	18.00

GLOBE ARBOR VITAE (*Globosa*). Makes a perfect globe when well grown. A dwarf sort with light green foliage, the spread usually equalling the height.

12 inches high.....	2.00	18.00
15 inches high.....	2.50	22.50
18 inches high.....	3.00	27.50

ABELIA GRANDIFLORA (*Glossy Abelia*). Has the great merit of bearing fragrant and beautiful flowers, as well as being evergreen. The leaves are at first bright green, turning later to a darker green. Heat and dust do not injure their beauty. The pinkish-white flowers are delicately fragrant and continue from May to November.

12 to 18 inch.....	.40	3.50
18 to 24 inch.....	.60	5.00
2 to 3 feet.....	.75	6.50
3 to 4 feet.....	1.25	10.00

BUXUS (*Boxwood*). These beautiful shrubs have been extensively used for hedges in formal gardens, and as specimen plants for lawn and landscape. They are justly popular, hardy evergreens that thrive in all, save the extreme northern portions of the country. For specimen plants, it is advisable to select a situation in partial shade.

12 to 15 inch.....	1.50	12.50
15 to 18 inch.....	2.50	20.00
18 to 24 inch.....	3.50	30.00
24 to 30 inch.....	4.50	

CAROLINA CHERRY LAUREL (*Laurocerasus Caroliniana*). This is a fine evergreen shrub growing 7 to 9 feet, with glossy leaves of deepest green. Its shiny foliage makes it most desirable.

2 to 3 feet.....	2.00
3 to 4 feet.....	2.50

ILEX OPACA, American Holly. This is one of the broad leaf evergreens that is being planted more and more. It is very easy to transplant, provided all leaves are removed at planting time. Use a good leaf mold or rich woods-dirt when planting. The large, glossy leaves and bright red berries make it a most attractive tree.

18 to 24 inch.....	2.00	17.50
2 to 3 feet.....	3.00	25.00
3 to 4 feet.....	5.00	

NANDINA DOMESTICA. An evergreen Japanese shrub, which grows well in any location. The white flowers are borne in panicles, followed by red berries. In spring the foliage is tinted with pink, turning to a beautiful bronze in winter.

15 to 18 inch.....	2.00
18 to 24 inch.....	3.50
2 to 3 feet.....	4.25

PEONIES. Peonies are the glory of all flower lovers. They thrive in almost any soil and under any conditions. They really have no superior for beauty and charm. Our varieties are very good; pink, red and white; mixed bulbs at 25c each; \$2.00 per 10.

IRIS. Let us send you a wonderful collection of some of the prettiest varieties of Iris you could ask for, such varieties as we list in our Catalog at 60c per dozen.

DAHLIAS. We offer you a wonderful collection of mixed Dahlias, containing the various colors: red, pink, purple, white, and yellow. We feel sure you would be well pleased with these. \$1.50 per 10.

TUBE ROSE. We can furnish both double and single blooming varieties of the Tube Rose. They are delightfully fragrant and beautiful. They usually begin blooming about July and continue until frost. Double, 60c per dozen; single, 45c per dozen.

FERNS. These graceful plants are of very easy culture, and are fast becoming popular. For a shady, moist planting, there is nothing that will better answer the purpose than these hardy ferns. When once established they do not require further care and attention. We offer three very beautiful varieties:

Cinnamon Fern, *Osmunda Cinnamomea*.

Royal Fern, *Osmunda Regalis*.

Christmas Fern, *Polystichum Acrostichoides*.

At 85c per dozen. Let us have your early order.
